

# Solids Handling Facilities Plan 11<sup>th</sup> Addition to the Nine Springs WWTP

Prepared for the

**Madison Metropolitan Sewerage District  
Madison, Wisconsin**

**January 2010**

by

**Applied Technologies  
16815 W. Wisconsin Ave.  
Brookfield, WI 53005  
262-784-7690**

**In association with**

**Carollo Engineers**

## TABLE OF CONTENTS

<u>CHAPTER</u>	<u>TITLE</u>	<u>PAGE</u>
	Table of Contents .....	i-ii
	Appendices .....	iii
	List of Tables.....	iv
	List of Figures .....	v
<b>1</b>	<b>EXECUTIVE SUMMARY</b> .....	1-1
<b>2</b>	<b>INTRODUCTION</b>	
	Project Background .....	2-2
	Purpose and Scope .....	2-3
	Project Documentation.....	2-5
	Planning Area and Study Period .....	2-6
<b>3</b>	<b>EFFLUENT LIMITATIONS</b>	
	Biosolid Use Objectives and Quality Standards.....	3-1
	Discharge Permit Requirements.....	3-2
<b>4</b>	<b>CURRENT SITUATION</b>	
	Wastewater Flows and Loadings.....	4-1
	Sludge Protection .....	4-2
	Solids Handling System Performance.....	4-4
<b>5</b>	<b>PROJECTED WASTEWATER FLOWS AND LOADINGS</b>	
	Wasteload Projections.....	5-1
	Sludge Projections.....	5-2
<b>6</b>	<b>EXISTING FACILITIES EVALUATION AND ALTERNATIVE ANALYSIS</b>	
	General Description.....	6-1
	Existing Anaerobic Digestion Facilities.....	6-1
	Unit Process Evaluation and Alternative Analysis.....	6-3
	Screening of Sludge Stabilization Alternatives.....	6-4
	Detailed Evaluation of Sludge Stabilization Alternatives.....	6-6
	Related Unit Process Evaluations .....	6-16
<b>7</b>	<b>RECOMMENDED PLAN AND IMPLEMENTATION</b>	
	Recommended Plan.....	7-1
	No-Action Alternative.....	7-5
	Resources Impact Summary .....	7-6
	Water Quality .....	7-6
	Air Quality .....	7-6

Historical and Archeological Sites .....	7-7
Floodplains and Environmentally Significant Lands.....	7-7
Public Health .....	7-7
Project Cost and Funding .....	7-7
Sewer User Charge Impacts .....	7-9
Implementation Schedule .....	7-11
Public Participation .....	7-11

## APPENDICES

- A. WPDES Discharge Permit
- B. Bibliography
- C. Technical Memorandum No. 1 “Basis of Design”
- D. Technical Memorandum No. 2 “Sludge Stabilization Alternatives Evaluation”
- E. Technical Memorandum No. 3 “Anaerobic Digestion Process Evaluation”
- F. Technical Memorandum No. 3A “Anaerobic Digestion Process Evaluation II”
- G. Technical Memorandum No. 4 “Anaerobic Digestion Ancillary Systems Evaluation”
- H. Technical Memorandum No. 5 “Foaming Mitigation Alternatives”
- I. Technical Memorandum No. 6 “Struvite and Chemical Precipitation Evaluation”
- J. Technical Memorandum No. 7 “Grease Receiving Facility”
- K. Technical Memorandum No. 8 “Sludge Thickening Systems Evaluation”
- L. Technical Memorandum No. 9 “Digester Gas Utilization”
- M. Workshop Handouts
- N. Public Hearing

## LIST OF TABLES

<u>TABLE NUMBER</u>	<u>TITLE</u>	<u>PAGE</u>
3-1	Biosolids Pollutant Limitations Nine Springs WWTP <sup>(1)</sup>	3-3
3-2	Biosolids Pathogen Control Options Nine Springs WWTP	3-4
3-3	Vector Attraction Reduction Options	3-5
4-1	NSWWTP Loadings Annual Plant Influent Loadings	4-1
4-2	NSWWTP Performance Summary Effluent Quality	4-2
4-3	NSWWTP Solids System Current Sludge Production Estimates <sup>(1)</sup>	4-3
4-4	NSWWTP Metrogro Summary Class B Biosolids Land Application	4-4
5-1	2030 Projected Influent Flows and Loading <sup>(1)</sup>	5-1
5-2	2030 Projected Sludge Production <sup>(1)</sup>	5-2
6-1	Existing Anaerobic Digesters	6-2
6-2	Existing Sludge Thickening Units	6-2
6-3	Anaerobic Digestion Process Comparison	6-5
6-4	Recommended Design Criteria for Anaerobic Digestion Processes	6-7
6-5	Economic Comparison of Digestion Alternatives	6-8
6-6	Non-Economic Comparison of Digestion Alternatives	6-9
6-7	Recommended Design Criteria for Anaerobic Digestion Processes	6-13
6-8	Economic Comparison of Digestion Alternatives	6-14
6-9	Non-Economic Comparison of Digestion Alternatives	6-15
6-10	Existing Digester Mixing Systems	6-17
6-11	Recommended Mixing System Design Criteria	6-18
6-12	Mixing Alternatives Economic Comparison	6-18
6-13	Existing Digester Heating System	6-19
6-14	Estimated Heat Requirements for Acid Phase Digestion	6-20
6-15	Preliminary Design Criteria-Digester Sludge Heating System	6-22
6-16	Present Worth Cost of Direct Steam Injection	6-22
6-17	Economic Comparison of Foam Mitigation Alternatives	6-24
6-18	Foam Mitigation Alternatives Summary	6-25
6-19	Existing Sludge Thickening Units	6-26
6-20	Economic Comparison of WAS Thickening Alternatives	6-27
6-21	WAS Thickening Alternative Comparison	6-28
6-22	Historic Ferric Chloride Usage	6-29
6-23	Preliminary Design Data for Chemical Addition	6-30
6-24	Design Data (2030) for the Ostara Struvite-Harvesting System (1)	6-32
6-25	Economic Comparison of Struvite Mitigation Alternatives	6-33
6-26	Struvite Mitigation Alternatives Summary	6-34
6-27	High Strength Waste Average Data	6-35
6-28	Biogas Production Estimates	6-36
6-29	Current Energy Consumption	6-38
6-30	Digester Gas Production	6-38

6-31	Existing Digester Gas Utilization Facilities	6-39
6-32	Digester Gas Utilization	6-40
7-1	Summary of Recommended Current Plant Improvements	7-2
7-2	Summary of Total Project Costs	7-8

## LIST OF FIGURES

<b><u>FIGURE NUMBER</u></b>	<b><u>TITLE</u></b>	<b><u>FOLLOWS PAGE</u></b>
2-1	Potential 2030 MMSD Service Area	2-6
4-1	Solids Process Schematic	4-6
6-1	Solids Process Schematic	6-40
6-2	NSWWTP Solids Handling Facilities Site Plan	6-40
6-3	Multi-Stage Acid-Phase Digestion Process Schematic	6-40
6-4	Multi-Stage Acid Phase Digestion Preliminary Layout	6-40
7-1	Solids Process Schematic	7-11
7-2	NSWWTP Solids Handling Facilities Site Plan	7-11
