FLUSHABLE? THINK AGAIN

What we put down our drains and toilets can negatively impact our environment and put our health at risk. Even items labeled “flushable” can clog pipes, tangle pumps and result in messy and costly sewer backups.

NEVER FLUSH >>

- baby wipes, moist wipes, paper towel
- band aids, or dressings
- medicines, vitamins, pharmaceuticals
- dental floss, string or thread
- tampons, condoms, sanitary napkins
- fats, oils and greases
- wrappers, plastic bags
- underwear, wash cloths, towels or rags
- toilet bowl scrub pads, sponges
- bagged dog feces, cat feces or fish gravel

INSTEAD >>

- medicines and pharmaceuticals can be placed in a Med Drop box
- everything else can go in the trash

Med Drop Information:
