2021 Innovation Grant Application

Organization:

Contact Name:

Phone:

Email:

Description of Project:

Why is the project innovative?

How will phosphorus reductions be achieved and quantified?

How many pounds of phosphorus loss do you expect to reduce? Consider from both the immediate project (funded by this grant) as well as the future impact of this on the phosphorus in the watershed:

How many pounds of phosphorus loss do you expect that this specific project will reduce?

What is the potential future impact of this project for the Yahara Watershed?

What information, experience and/or other insight has led you to test this approach?

Who will be involved (organizations and/or individuals)?

Is there any permitting involved?

If yes, when do you expect that all permits will be received?

Will the project be completed by December 31, 2021? Yes No

Will the project be completed by December 31, 2022? Yes No

Will the project be located within the Yahara Watershed? Yes No

If yes, which TMDL reach(es)?
(See Figure 1 on page 3)

Total dollars requested:

Would you accept partial funding? Yes No

Certification: The person noted below certifies that the information contained in this application is true and correct to the best of his/her/their knowledge. As a participant in a project, the person noted below understands that the review committee reserves the right to work with applicants to develop a clearer understanding of the project as well as cost opinions and projected phosphorus reductions.
