Memorandum of Understanding Related to the Yahara WINS Adaptive Management Project

1. Parties
The parties to this MOU are Yahara Watershed Improvement Network ("Yahara WINS") and the Town of Westport.

2. Recitals

- The Town of Westport executed the Intergovernmental Agreement For An Adaptive Management Plan For the Yahara Watershed.
- Results of updated stormwater modeling conducted on behalf of the Town by Strand Associates show that the Town has met its phosphorus reduction requirement for the Rock River TMDL.
- Based on Section 9 of the IGA, the Town of Westport recalculated IGA cost using the updated stormwater modeling information is zero.
- The updated stormwater modeling information shows that the Town of Westport still needs to achieve some TSS (sediment) reduction to meet its TSS allocation in the TMDL.
- Yahara WINS has translated the TSS reduction to a "phosphorus equivalent" reduction. Yahara WINS agrees that the Town of Westport could achieve its TSS reduction through Yahara WINS by purchasing 26.3 lbs of phosphorus per year at a total annual cost of $1,290.
- The Town of Westport wishes to contribute an additional $3,710 per year to support general Yahara WINS efforts to advance the Adaptive Management Plan for the Yahara Watershed.

3. Financial Contribution

   a. The Town of Westport agrees to make an annual contribution of $1,290 starting in the calendar year 2017 to offset 26.3 lb/year of phosphorus, with the corresponding TSS reduction being applied to reductions in TSS that the Town of Westport needs to meet its TMDL allocation for TSS. This contribution is subject to all of the conditions of the Intergovernmental Agreement.

   b. The Town of Westport agrees to make an annual contribution of $3,710 to advance the Adaptive Management Plan for the Yahara Watershed, starting with the calendar year 2017. The Town of Westport may withdraw its support for this contribution by providing 180 days written notice in advance of withdrawal.
