Attachment 1 - Amalgam Separator/Device Inspection Log

You may use this inspection log at this clinic to document routine inspections of the amalgam separator or equivalent amalgam collection device. Using this form, and retaining this record for a minimum of three years, satisfies the documentation requirement in 40 CFR §441.50(b)(1). Your clinic may use another log if desired as long as it captures the information below.

Person conducting	Result of	Follow-up actions	Date follow-up actions completed
inspection	пізреспоп	needed	actions completed
	Person conducting inspection		

Attachment 2 - Amalgam Separator/Device Repair or Replacement Log

You may use this log at this clinic to document repairs or replacements of the amalgam separator or equivalent amalgam collection device. Using this form, and retaining this record for a minimum of three years, satisfies the documentation requirement in 40 CFR §441.50(b)(4). Your clinic may use another log if desired as long as it captures the information below.

Date	Repair or	Person making repair	Description of repair or replacement,
	Replacement?	or replacement	including make/model of device
