

An aerial photograph of a wastewater treatment plant. In the foreground, there are several large, circular concrete tanks with metal walkways and railings. A brick building with a flat roof is situated next to them. In the background, more industrial buildings, including a large one with a white upper section and a brown lower section, are visible. Further back, there are three large, dome-shaped storage tanks. The entire facility is surrounded by green grass and some trees. The image has a blue tint and a white wavy line graphic across the bottom.
